

# INCREASE YOUR OPERATIONAL EFFICIENCY

BUSINESS ANALYST  
LEVEL 4 APPRENTICESHIP

## Arm your team with analytics mastery

The principles of data analytics are being applied across almost every industry. Business analysts are making data-driven business decisions and driving customer value across every team and function, including finance, sales and marketing.

### It's time to make more effective business decisions

Business Analysts determine requirements and deliver data-driven recommendations and reports to executives and stakeholders.

### Increase efficiency and improve performance

Business Analysts take responsibility of knowing when a business needs change and assessing the business impact of those changes. Analysts also examine and record requirements, and maintain the communication and delivery of the requirements to relevant stakeholders.

### Identify solutions to solve your organisational obstacles

Business Analysts are responsible for bridging the gap between departments and the entire business using data analytics to assess processes, present findings, and construct solutions.

### Magnify your processes and systems

Business Analysts can conduct research and analysis to allow your organisation to make better decisions to determine processes and systems.

A fully funded programme designed to transform your talent and workplace

# Business Analyst Level 4 Apprenticeship

Build the skills and capabilities you need throughout your organisation to deliver insight-based business decisions.

Upskill or reskill your existing workforce, and create Business Analysts for the modern day workplace.
