

Agenda

1

Development apprenticeships
Launching 4 data programmes

2

Programme overview
What's involved

3

How you'll be supported
Right people on the right
programme

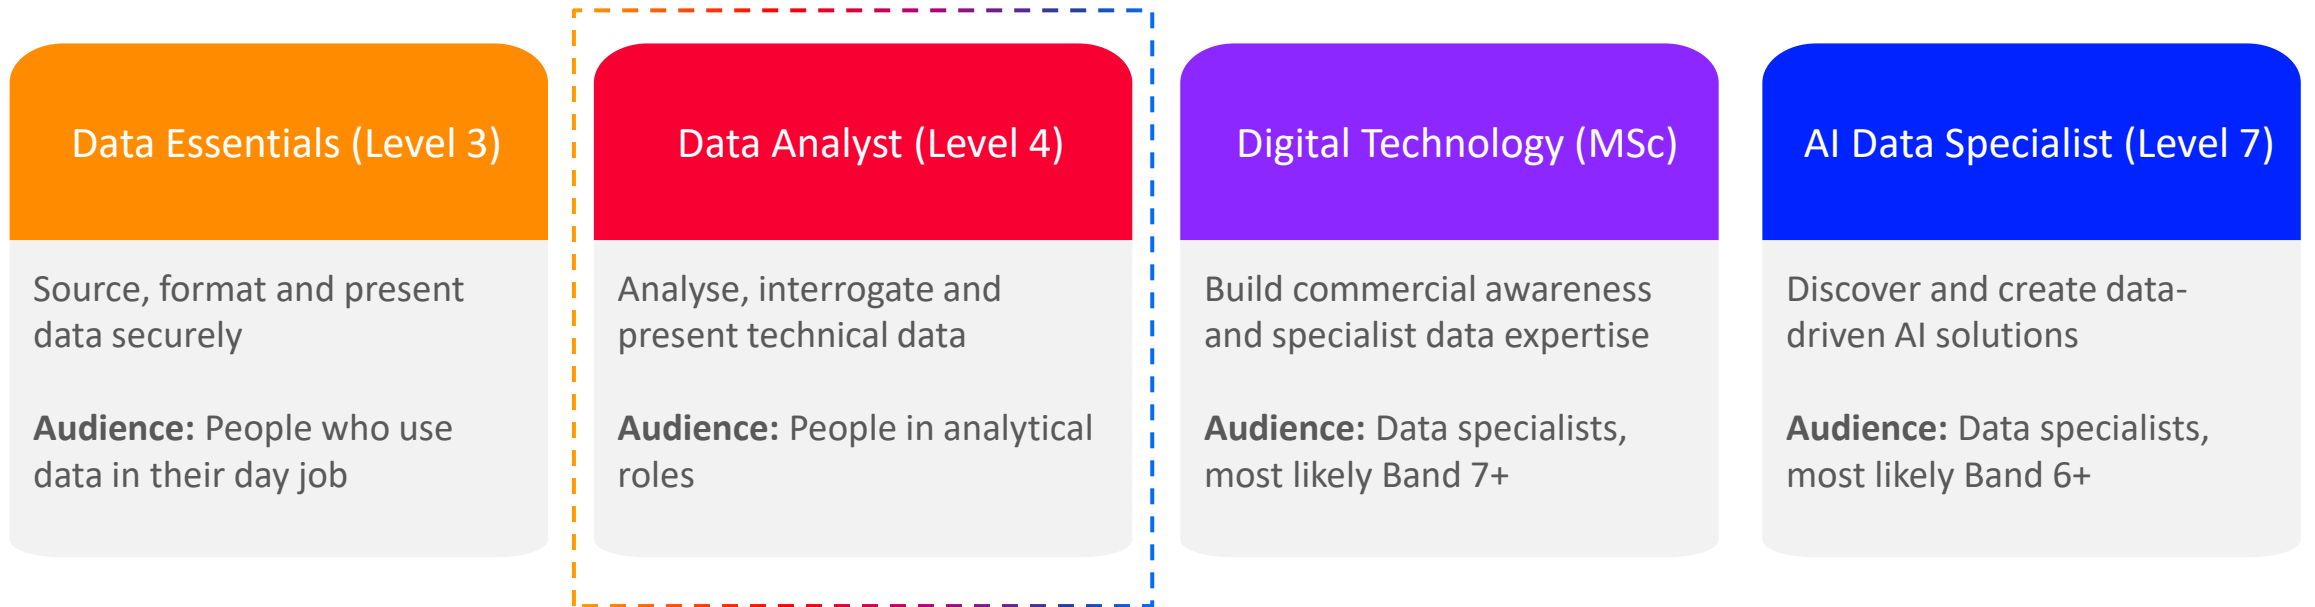

4

Application process
What can I expect next

We're launching four programmes across Sky, ranging in levels

These are a brilliant opportunity to level up your data skills

In England, the apprenticeship levy fully funds learning – however, levies are much more restrictive in other nations.

If living outside of England, please do still register and we'll explore options

The programme

What will you get out of the programme?

Advanced Data Literacy

Data analytics concepts, interpret data and make impact

Analytics-Focused Training

Role-specific training, apply insights and methods day-to-day

Proficiency in Analytical Tools & Techniques
Proficiency in Sky specific tools

Comprehensive Data Skills

Develop skills in data preparation, manipulation, and analysis

Enhanced Analytical Capabilities

Master analytical approaches to interpret and evaluate data

Build your network

Learn from your peers and industry experts

What you'll learn on the Data Analyst Level 4 Apprenticeship

Modules (15 months)

Module 1:	Data Fundamentals (6 weeks)
Module 2:	Data Preparation and Visualisation (8 weeks)
Module 3:	Databases and SQL (8 weeks)
Module 4:	Programming for Data Analysis (6 weeks)
Module 5:	Data Warehouses (10 weeks)
Module 6:	Data Analysis and Machine Learning (10 weeks)
Module 7:	Machine Learning in the Cloud (6 weeks)

End Point Assessment (EPA) (3 months)

Project Report with Presentation
Professional Discussion
Optional: Tableau Desktop Specialist
IfATE DA4 Qualification

QA have a 3-step digital delivery method

Structured to give the best experience for our learners

01

Discover

Learners follow a development path focussed on their job role

Virtual learning environment

QA's digital platform

Coaching

02

Practice

Learners come together for hands-on labs, safe sandboxed environments and to collaborating with peers

Tutor-led live workshops

Guided and un-guided labs

Peer collaboration

Instant chat

03

Apply

Learners go back into the workplace and apply their skills to real-job situations and projects

Workplace projects

Application on Sky tools

Sky enhancements

24-Hour marking

What's involved?

On and off the job learning

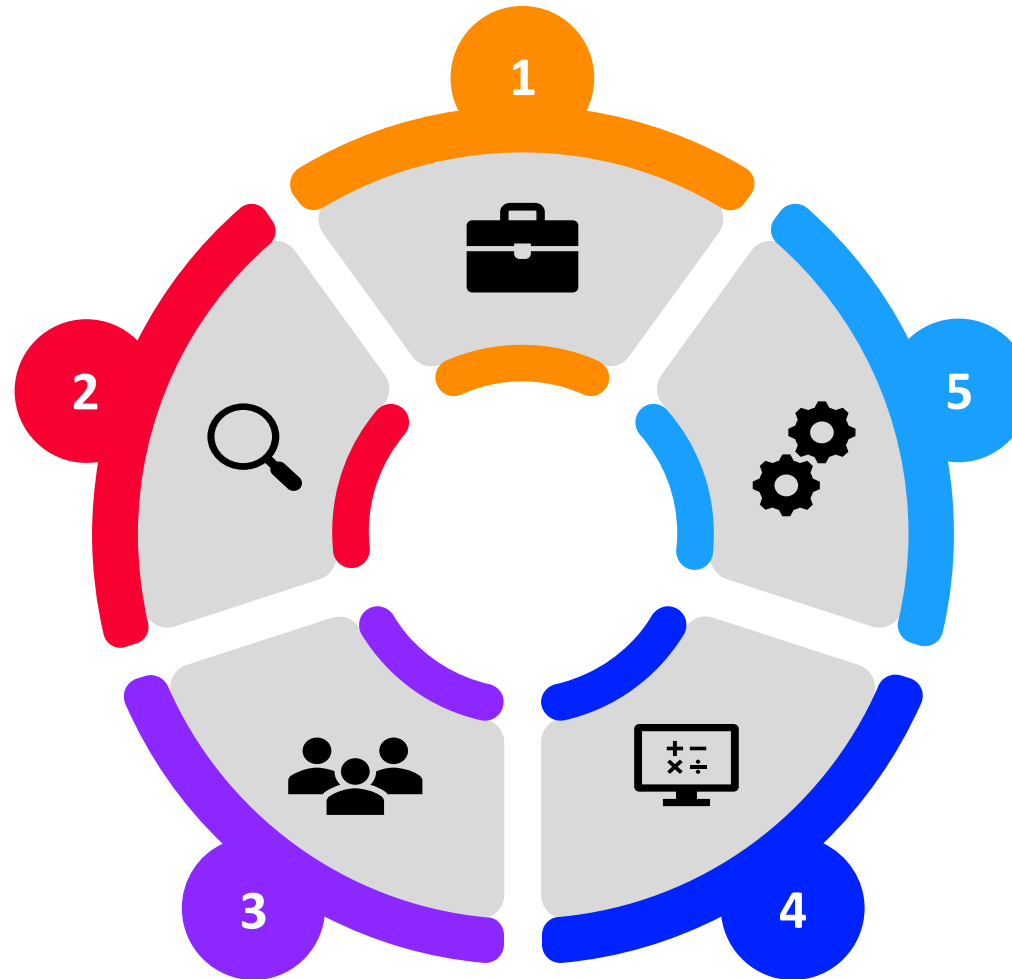

Relates to putting your learning into practice and applying your knowledge through real work-based scenarios

Evidence collation

Proof that learning has been put into practice competently including assignments, witness testimonies, professional discussion, meeting minutes, etc

Line manager support

Line managers supporting and providing opportunities for learners to practice their skills

End point assessment

Conducted by an independent Organisation and end of programme assessment of the learner's ability to completely use the knowledge, skills and behaviours developed through the programme

Functional skills

Ensuring a level of numeracy and literacy to compliment the learner's data capabilities

You'll also get access to...

Enhance programmes

Gamified Learning

- Baseline skills, gauge readiness
- Constructive competition
- Integrated throughout learning journey

Hands-on labs

- Run with – or without – guidance
- Practical training directly in console or CLI

Targeted skills development

Learning paths

Guided training experiences with Courses, Quizzes, Labs and Exams

Stretch Content

A vast catalogue of over 10,000 hours of meaningful, constantly updated content available within the QA Learning Platform library

Association of Apprentices

The Association of Apprentices (AoA) is a membership organisation that connects apprentices across the UK.

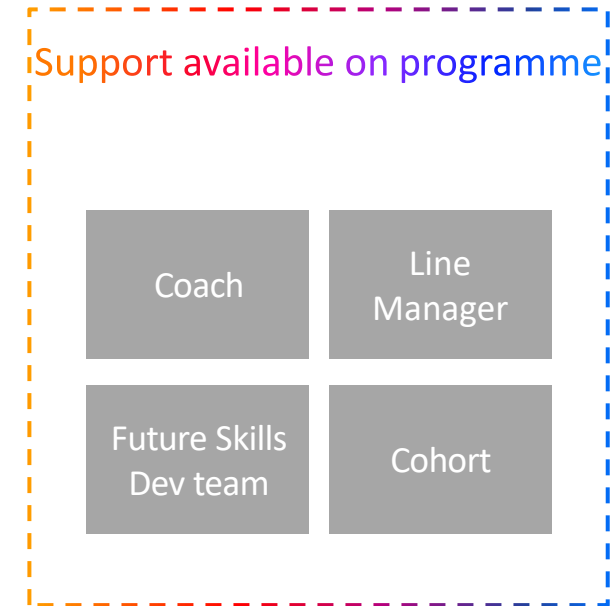

What does this mean for you?

- Expand your professional network
- Access high-quality content to fulfill your 20% off-the-job training
- Gain insights from industry experts and leaders
- Attend free events

How you'll be supported

Apprenticeships are a powerful way to learn but require commitment

On average 6 hours a week should be dedicated to a mix of on and off the job learning

Line Manager checklist

	1	2	3	4	5	6	7
Line Manager Expectations	Attend all review meetings. These are mandatory meetings between the learner, line manager and the Skills Coach /DLC /Assessor. Here you will be able to check on your learner's progress and agree (with the Skills Coach /DLC /Assessors support) how you plan to provide opportunities for your learner to apply the knowledge they get from QA workshops and assignments within the organisation as part of their role	Ensure your learner takes advantage of QA support system as needed	Help prepare your learner for the End-Point Assessment and submissions	Encourage your learner to attend and prepare for all workshops	Encourage your learner to take advantage of ad hoc support with submissions/assignments	Receive feedback on draft learner submissions	Expect marks on submissions
Level 3/ Level 4	<p>Your coach is called a Digital Learning Consultant (DLC). Learner and line managers attend review meeting together 1 week after programme launch.</p> <p>Following initial meeting, your DLC will host a meeting with only the learner, and a meeting with only the line manager. From thereon, attend review meetings with your learner and DLC every 12 weeks.</p>	Learner and line manager can chat online with the DLC on QA's online platform at any time.	Learner and line managers attend reviews via QA's online platform.	Via QA's online platform, you can track your learner's progress through their apprenticeship journey. Keep an eye on off-the-job training hours, completed assignments and easily spot any risks through our red, amber, green progress statuses.	As and when learners' uploads work to QA's online platform.	Learner receives feedback via QA's online platform	Learner receives marks via QA's online platform

What can I expect from the application
process?

Here's the criteria you'll need to meet for this opportunity

Fundamentals

E.g. permanent employee, PDP 3+ and don't hold related qualification

Relevance to role

E.g. relevant experiences to apply learning

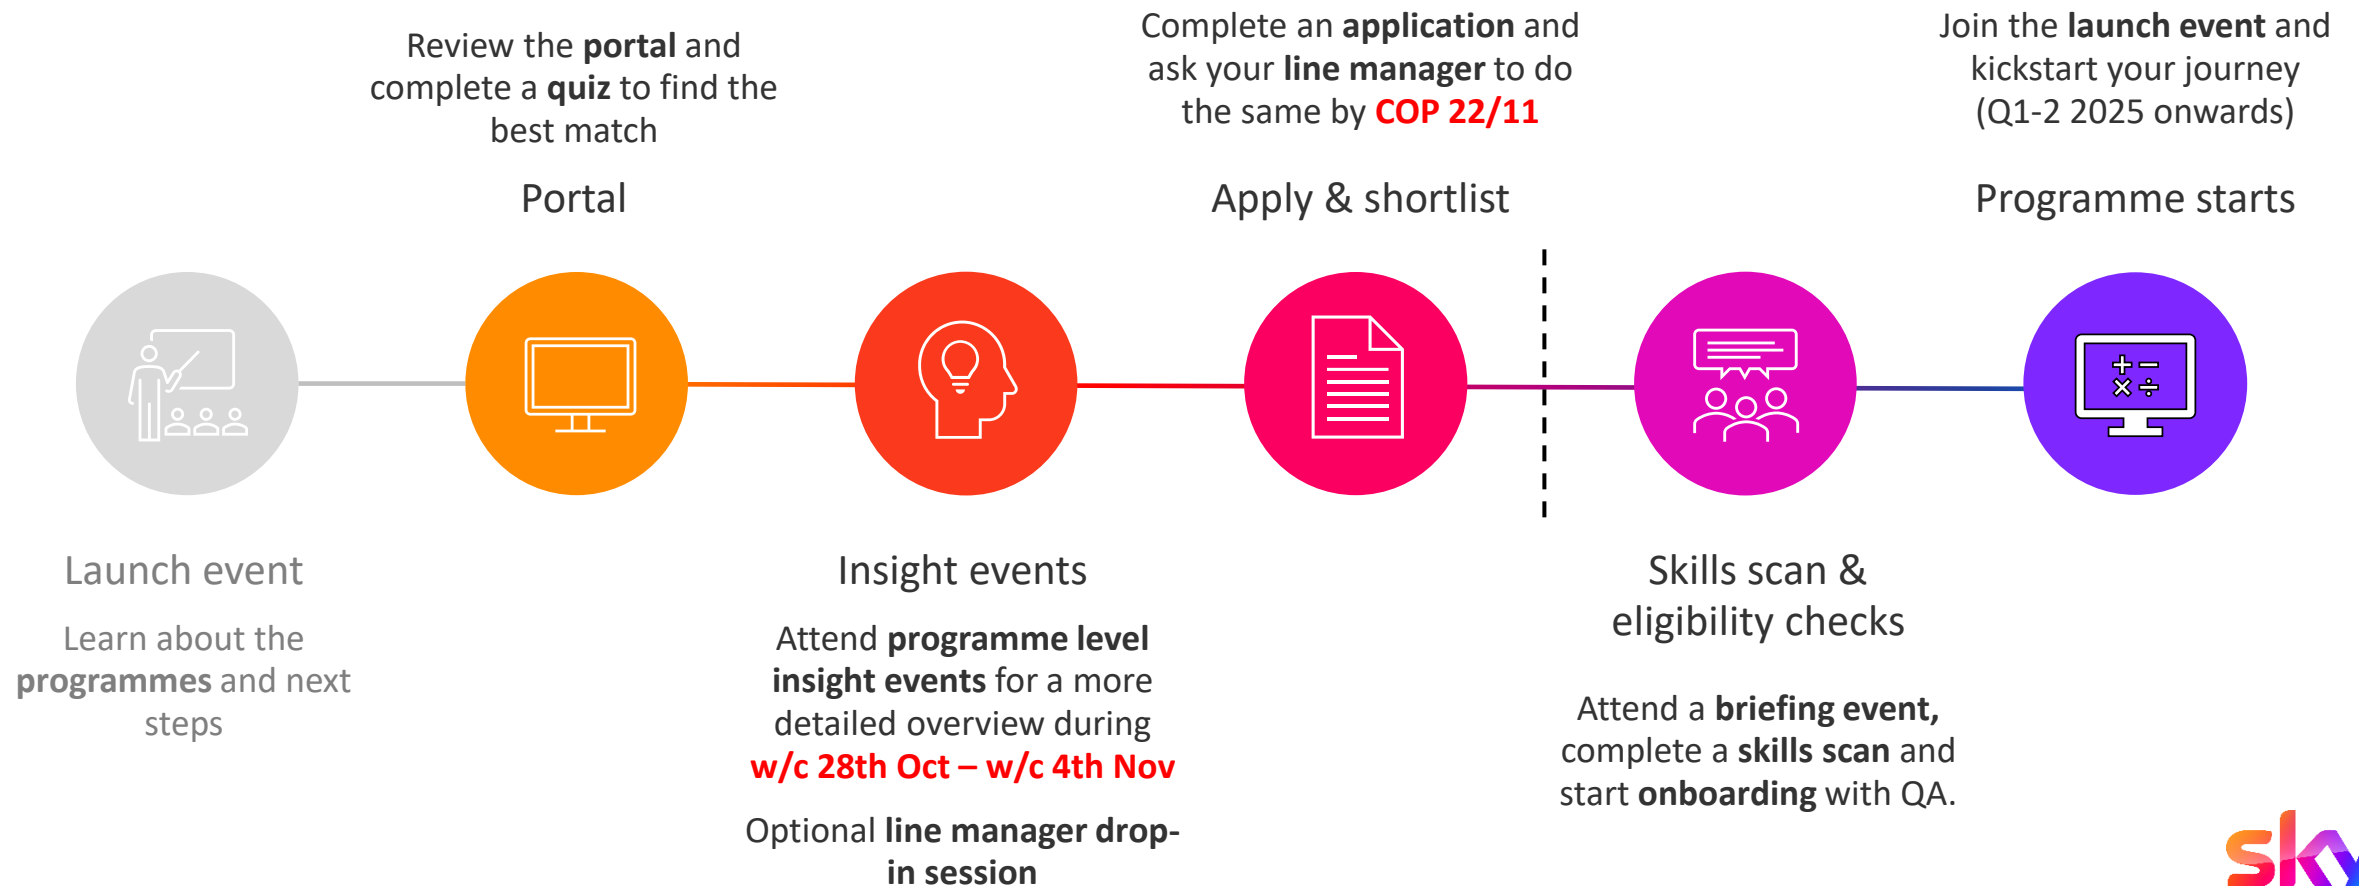

Match to apprenticeship style of learning

E.g. capacity for learning, support from manager

The learner journey, from launch to start

This multi-step process and support tools will help match you to the right level programme

Data Development Apprenticeships

It's more than numbers - it's our driving force. The last few years have seen unimaginable growth in the role of data in our lives, increasing the importance of building data skills.

By harnessing data we can join the dots, increase efficiencies, and make the right decisions. We're excited to launch data development apprenticeships.
